

Project-oriented capacity building for organisations from Ukraine, France, Poland, and Germany on migration

Through seminars and workshops, the programme will provide orientational and applied knowledge on the topics of migration (in 2020) and local development (in 2021), as well as foster cross-sectoral competences and international networking. Subsequently, the participants from various fields (education, human rights, culture and others) will implement their project ideas and establish new cooperations, contributing to a sustainable transnational dialogue.

The costs for the events, workshops, accommodation, catering during the seminars and travels to Frankfurt (Oder) and Kyiv will be covered by the organisers. Furthermore, chosen participants are supported with a travel grant (up to 400 €) which allows them to engage in networking abroad individually.
